Hello We Are From Techno India NJR Institute Of Technology, Udaipur. We are doing summers internship from Sanjay rathore Sir who works for Grass Institute, Jaipur. We have Chosen fullstack Development Course. We have learned so many technology from Sanjay Sir mentioned below:

HTML
CSS
JavaScript
Node JS
TypeScript
Angular
Mongo DataBase
MongoDb Atals
Git
GitHub

We have also used above all technologies in our Project.

Our Project is freelancing Website In this developer can register themselves and create their profile and clients can visit our website and

find developers and see developers profile and their skills and many more and if client interested can contact via Email.

In our Website Web developers often work for clients who are trying to get their product or service onto the web. The work is typically very project focused and involves collaborating with a team that helps to coordinate the client's needs into the end product. The client could be a tech company, an organization, or a government. The work could involve front-end, back-end, or full-stack web development.

Web development could be a good profession for you if you like solving logical problems, building useful things, and experimenting with new technologies. Web developers are in high demand, generally have a good work/life balance, and command comfortable salaries. Google your specific location to get a better sense of your local web development job opportunities.

OBJECTIVE

This Project is going to be developed with main objects behind this.

- * The main objective of Freelancing is that to provide the all developers to Clients.
- * In this website Developer can register themselves and create their profile so Clients easily find any developers by searching their category on Search Bar.

Other Objective

- * Database Security.
- * Effective database management.
- * Transaction managements.
- * Maintain addition or deletion in any category.

Web base system

- * Easy and fast response.

- * Flexible to access.

Developer SignIn form:-

The screenshot shows the Freelancing website's Developer SignIn form. The header includes the 'Freelancing' logo, a search bar, and navigation links for 'HOME', 'CONTACT', 'SIGN IN', and a green 'SIGN UP' button. The main content area features a white box with the heading 'Log in and get to work'. Below this, there are two input fields: the first contains the email 'goldenhearten7@gmail.com' and the second contains masked characters '*****'. A green 'Continue' button is positioned below the password field. Underneath the 'Continue' button is the text 'New User' and a white 'Sign Up' button with a green border.

#Contact Us:-

The screenshot displays the 'Contact Us' page on the Freelancing website. The header is identical to the previous page. The main content area has a green background with the heading 'Contact Us :'. Below the heading, contact information is listed: 'Email Us : taruntailor7@gmail.com', 'Mobile No. : 8000808594 , 7737233212', and 'WhatsAPP : 8000808594 , 7737233212'. A dark blue banner below the contact information contains the text 'Looking to hire for long-term or full-time assignments?'. The footer is a dark blue section divided into three columns: 'COMPANY' (with links for 'About Us', 'Terms of Service', 'Privacy Policy', and 'Accessibility'), 'RESOURCES' (with links for 'Resources', 'Customer Support', 'Customer Stories', and 'Business Resources'), and 'BROWSE' (with the link 'Find Developers').

CONCLUSION

In our project work, an attempt has been made to develop a Freelancing Website. We develop this project that helps the people and people can find any developer. To establish this website we use various methodologies. To develop this project we have faced many problem but we hardly tried to develop this project. Our supervisor helps us by giving his valuable opinion, decision and time.

THANK YOU
